AFFIDAVIT OF CHLORINATION

As required by 2023 Florida Building Code Section 610.1

New or repaired potable water systems shall be purged of deleterious matter and where required by the Administrative Authority, disinfected prior to utilization. The method to be followed shall be that prescribed by the health authority or water purveyor having jurisdiction or, in the absence of a prescribed method, the procedure described in either [AWWA C651](#) or [AWWA C652](#), or as described in this section.

Please initial items 1-4

- 1) _____ The pipe system was flushed with clean, potable water until dirty water no longer appeared at the points of outlet.
- 2) The system or part thereof was filled with a water/chlorine solution:

_____ containing at least 50 parts per million (50 mg/L) of chlorine, and the system or part thereof was valved off and allowed to stand for 24 hours;

OR

_____ containing at least 200 parts per million (200 mg/L) of chlorine and allowed to stand for 3 hours.
- 3) _____ Following the required standing time, the system was flushed with clean potable water until the chlorine was purged from the system.
- 4) _____ The procedure was repeated until a bacteriological examination showed that any contamination was removed from the system.

I, _____, certify that the property listed below has been purged and disinfected in a manner consistent with the 2023 Florida Building Code Section 610.1 as outlined above.
