- 5.2 **Amendment/Change Order Proposal (Time and Scope Change Directives):** The Firm's proposals for changes in the Agreement amount or time shall be submitted within seven (7) calendar days of the Owner's request, unless the Owner extends such period of time due to the circumstances involved. In the case of an unacceptable Firm proposal, the Owner may direct the Firm to proceed with the changed work on a cost-plus basis with an agreed upon "not-to-exceed" price for the work to be performed. Firm agrees that any "buy-out savings" on change orders shall accrue 100% to Owner. "Buy-out savings" are defined as any savings negotiated by the Firm with a sub-consultant or a material supplier after receiving approval of a change order amount that was designated to be paid to a specific subconsultant or supplier for the approved change order work – any change to a NTE fee for a project fee would require a mutually agreed upon written amendment to the Staffing Cost Proposal contract utilizing hourly rates as shown in Exhibit E.

Firm agrees that if the Owner determines the cost and pricing data submitted (whether approved or not) was inaccurate, incomplete, not current, or not in compliance with the terms of the Agreement regarding pricing of change orders, an appropriate contract price adjustment will be made. Such post-approval Agreement price adjustments will apply to all levels of sub-consultants and/or suppliers and to all types of change order proposals specifically including lump sum change orders, unit price change orders, and cost-plus change orders. This provision survives the expiration of this Agreement.

However, at the time change orders (amendments) are priced, the submitted cost data for labor rates may be used to price change order work. The accuracy of any such agreed upon labor cost components used to price change orders will be subject to later audit. Approved change order amounts may be adjusted later to correct the impact of inaccurate labor cost components if the agreed upon labor cost components are determined to be inaccurate.
