Description of item to be procured: GE Spectra RMS Series Motor Control Center (MCC) power distribution circuit breakers.

1.) Uniqueness of vendor's item/service. How is this vendor the only vendor uniquely qualified to provide the product or service: These circuit breakers are no longer manufactured and are obsolete. Anixter, Inc. has remaining stock of this specialized electrical equipment in their inventory for purchase and ready for installation.

2.) Market Research. Describe other, similar sources or products available in the market, if any, and why they are not acceptable: Due to the age of the motor control centers at the City's Water Reclamation Facilities (WRF's), other make and model circuit breakers would not be compatible with current equipment. An alternate make/model would require significant and costly upgrades at both the Everest and Southwest WRF's causing significant equipment downtimes that could potentially affect treatment performance.

3.) Proposed Actions. Describe the actions the department will take to overcome the present barriers to competition for any future acquisition of this product or service: We will continue to stay informed of advancements in emerging and available components, processes, and equipment capable of meeting the needs of Utilities and the Community and include evaluations of different manufacturer's products as appropriate for future projects.
