Description of item to be procured: Gorman Rupp Pump

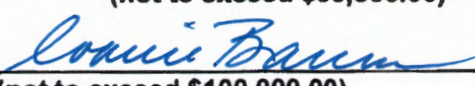

1.) Uniqueness of vendor's item/service. How is this vendor the only vendor uniquely qualified to provide the product or service: Hudson Pump and Equipment is the exclusive, sole-source vendor for Gorman Rupp Pumps and supplier of replacement and repair parts.

2.) Market Research. Describe other, similar sources or products available in the market, if any, and why they are not acceptable: The Water Reclamation Division utilizes Gorman Rupp Pumps citywide for use as backup pumps for lift stations as well as transfer of canal water from one system to another. Other products are available on the marketplace but due to current design, dimensions, and layout, it is more cost effective to utilize Gorman Rupp Pump for this application at the Everest Water Reclamation Facility.

SUBJECT: Purchase of One Portable Diesel Pump

The Water Reclamation Division is requesting a purchase order in the total amount of \$145,000.00 to Hudson Pump & Equipment for the sole source purchase of one Gorman Rupp 6" x 4" centrifugal portable diesel pump.

This pump is used for emergency transfer of wastewater during prolonged power outages, pump failures, or unforeseen emergencies which may occur within the collection system. These pumps can also be used for maintenance repairs at both Water Reclamation Facilities and at the canal pumping stations.

There are other brands of portable diesel pumps on the market, however, Water Reclamation already has 23 Gorman-Rupp portable diesel pumps used for lift station emergencies and maintenance. The wastewater and water facilities also use the same brand/type pump for operational requirements. Maintaining the same brand of equipment has proven to be cost effective by keeping a smaller spare parts inventory and provides standard operating procedures for all portable pumps. The City's Water Reclamation Collection System is pleased with the performance of the Gorman Rupp pumps for over 20 years and they depend on the reliability of these pumps during routine maintenance and emergency situations.

Funds are budgeted and available in Tyler Operating Account #400-36014-564101 (Capital Equipment), Line #50 "Backup generator/bypass pump", Resolution 266-23, Council Approved on 10/04/2023.
