

Self-Contained Breathing Apparatus Annual Flow Testing and Inspection Mine Safety Appliances (MSA) G1

Ten-8 Fire & Safety hereby agrees to perform the Certified Annual Flow Testing and Inspection herein set forth. This work will be performed in a professional and workmanlike manner in accordance with NFPA 1852-2019 edition: Standard on Selection, Care, and Maintenance of Open-Circuit Self-Contained Breathing Apparatus (SCBA). Services that Ten-8 Fire & Safety can provide for your department on site are as follows:

1. SCBA Regulator Performance Flow Testing with approved Posi3 and MSA Software, in accordance with NFPA 1852-2019
2. Facepiece Leak Testing
3. Facepiece Fit Testing (for individual personnel) in accordance with (ASTM F3387 & OSHA Title 29 CFR part 1910.134)
4. SCBA and Facepiece Repairs
5. Cylinder Visual Inspection and Repairs

This agreement provides for the performance of services only specified within this agreement. Flow testing and overhaul frequency is mandated by the manufacturer and determined by individual apparatus use. A copy of the Required Overhaul and Flow Test Frequency can be provided upon request. An MSA Certified Airmask Repair Education (C.A.R.E.) Technician will perform the services set forth below and provide a digital report as a permanent document for your records. A copy of the report will also be kept on file by the Ten-8 Fire & Safety Equipment Service Department.

This agreement pricing schedule is for testing procedures only and does not include any repair parts or additional repair labor. Normal wear items, such as O-rings, will automatically be replaced at the time of testing and will be considered “approved repairs” by the customer.

Agreement Pricing Schedule

Annual Pricing Schedule SCBA Flow Testing

Year	Price	Quantity	Extended Price
1	\$69.00	144	\$9,936
2	\$71.00	144	\$10,224
3	\$73.00	144	\$10,512

Annual Pricing Schedule Facepiece Leak Testing

Year	Price	Quantity	Extended Price
1	\$30.00	280	\$8,400
2	\$30.00	280	\$8,400
3	\$30.00	280	\$8,400

Annual Pricing Schedule Facepiece Fit Testing

Year	Price	Quantity	Extended Price
1	\$30.00	262	\$7,860
2	\$30.00	262	\$7,860
3	\$30.00	262	\$7,860

Any additional repairs, parts, and/or labor will be charged and invoiced separately at the published time and material rate by Ten-8 Fire & Safety. The current labor rate is one hundred and twenty dollars (\$120.00) per hour. Written estimates will be furnished for any additional service or repairs that may be needed because of this inspection and standard maintenance. Additionally, a mobile service travel fee for a total of three (3) technicians will be charged separately each year at the published time and material rate. The current travel rate is one dollar and thirty cents per mile (\$1.30/mile) to and from the maintenance location from the Equipment Service Department in Bradenton, FL.

Agreement Provisions

Ten-8 Fire & Safety shall provide the following services.

1. SCBA Annual Flow Testing
2. Facepiece Annual Leak Test
3. Facepiece Fit Test
4. SCBA and Facepiece Repairs
5. SCBA Cylinder Visual Inspection and Repairs, as required

****NOTE****

The Flow Testing and Inspection will take approximately one half (1/2) hour per SCBA; however, if repairs and or adjustments exceed one half (1/2) hour, the additional time and repair parts will be charged in accordance with the agreement, as stated above.

This inspection and maintenance shall be performed annually for:

City of Cape Coral

-
- Location of Maintenance: 815 Nicholas Pkwy E, Cape Coral, Florida 33990
-

One hour of labor will be charged for each additional location.

Ten-8 Fire & Safety will correspond with, schedule, and notify the person named in this agreement (or other designated point of contact) three (3) weeks in advance of the date the equipment is due for service and inspection and again one (1) week prior to service date.

Our service department strives to provide you with unparalleled service and support. The Annual Maintenance Program will help you protect the investment that your department and community have made in your equipment. This also ensures a maximum amount of high performance, in-service time.

Flow Testing & Inspection Specifications

In an effort to provide the best service and maintenance for your SCBAs, Ten-8 Fire & Safety offers the following service maintenance and inspection.

Complete SCBA Annual Flow Test consists of:

1. Visual inspection of the SCBA for cleanliness.
2. Visual inspection of the backplate and harnesses.
3. Visual inspection of hoses, 1st & 2nd stage regulators.
4. Leak Test all fittings and connections, if equipped.
5. Visual inspection of all buckles, straps, and accessories.
6. High Pressure Leak Test.
7. Bypass Test.
8. Alarm Activation Test.

NOTES:

The complete SCBA Test will be performed on the PosiChek 3 System.

Ten-8 Fire & Safety Equipment Service Technicians will not be responsible for cleaning SCBAs prior to testing and will not test equipment that has not been properly decontaminated.

Facepiece Annual Leak Test consists of:

1. Visual inspection of the facepiece for cleanliness.
2. Visual inspection of the facepiece rubber components, lens, head harness, straps, and adapter component housing.
3. Facepiece Leak Test.
4. Standard Rate Breathing.

NOTES:

Facepiece Leak Test will be performed on the PosiChek 3 System.

Ten-8 Fire & Safety Equipment Service Technicians will not be responsible for cleaning Facepieces prior to testing and will not test equipment that has not been properly decontaminated.

Cylinder & Valve Inspection consists of:

1. Visual inspection of the cylinder and valve assembly.
2. Visual inspection of the pressure gauge for proper readings.
3. Ensuring that the gauge protector is in place.

Other Components:

1. All components shall be checked and inspected in accordance with NFPA 1852 (2019) edition. Standard on Selection, Care and Maintenance of Open-Circuit Self-Contained Breathing Apparatus, a digital copy of the completed test results and all notations shall be provided to the department upon completion of the service. A copy will also be retained by Ten-8 Fire & Safety. This will ensure that your SCBA is operating in accordance with manufacturer specifications.
2. All deviations from the manufacturer specifications shall be noted, and recommended service and/or repairs will be given priority. No repairs other than items covered in this agreement will be completed without authorization.
3. Ten-8 Fire & Safety Equipment Services Technicians will work with fire department personnel but shall not be held responsible for the removal of and/or placement of SCBAs off/on the apparatus.
4. Upon completion of the Annual Flow Test and Inspection, the SCBA shall be brought to factory specification and tested at the designated pressures. Any alterations or repairs performed by anyone other than an MSA C.A.R.E. Certified Technician shall be done at the department's own risk. Neither Ten-8 Fire & Safety, nor MSA's service personnel shall be held responsible for injury that may result from a system failure due to unauthorized alterations or repairs.

NOTE: If the G1 SCBA reaches its 600 hours of "on air" usage within the timeframe of this agreement, the recommended overhaul is not part of the agreement and will be quoted and performed separately.

Cancellation:

This Service Agreement may be terminated by the City for its convenience upon thirty (30) calendar days prior written notice to the Contractor. In the event of termination, the Contractor shall be paid as compensation in full for work performed to the day of such termination, an amount prorated in accordance with the work substantially performed under this Agreement. Such amount shall be paid by the City after inspection of the work to determine the extent of performance under this Agreement, whether completed or in progress.

Annual Appropriation Contingency:

Pursuant to FL Statute §166.241, the City's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the City Council. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the City, if the City Council reduces or eliminates appropriations.
